## **SUNDANCE® SPAS OFFERS A HOT SERIES THAT SHAPES UP THE SPA EXPERIENCE**

*680 Series Brings Affordable Luxury to First-Time Hot Tub Buyers*

CHINO, Calif. — Circles, squares and triangles define the shapes of the 680 Series hot tubs from Sundance Spas, an option-rich, value-priced line from the world’s largest acrylic spa manufacturer. Each model in the line is designed to make small spaces special.

“Soothing therapy jets, unique dimensions and exciting entertainment and lighting options make the 680 Series the perfect combination of comfort and styling fit for the entry-level buyer,” said Erica Moir, vice president of product development, design and marketing at Sundance Spas. “The relaxing and invigorating hydrotherapy massage provided by these spas are sure to hook first-timers on the hot tub experience.”

This fun line, defined by its geometric shapes, pairs buyers with the perfect hot tub. “Many people believe that they either don’t have the space or budget available to own a spa,” adds Moir. “This line proves that affordable luxury is possible, and a spa is a great way to add entertainment to a family’s backyard.”

- Hawthorne™ Spa: This hot tub may be square, but it is certainly not unfashionable with six hydrotherapy stations, including a comfortable therapy lounge and cozy side-by-side seating. Customize the Hawthorne with optional CL upgrade packages that add LED lighting throughout the spa, a four-speaker stereo, designer stainless steel jet faceplates and a 24-hour water circulation pump.

- Hartford Spa: Unwind with the Hartford's 42 hydrotherapy jets positioned for relaxation. With an open seating layout for seven and standard features such as a waterfall, beverage holders and pillow head rests – the Hartford is designed to impress. Also available with the CL upgrade packages.
- Burlington™ Spa: The spacious Burlington™ spa redesigned for 2008 includes three pillow head rests, a waterfall, a full lounge seat and hydrotherapy stations for up to six people. It is designed to fit squarely within any budget with the ability to customize using CL upgrade options.
- Tacoma™ Spa: Decks and patios provide the ideal location for the Tacoma™ Spa, a triangular hot tub with seating for two and 12 therapy jets.
- Denali™ Spa: This traditional round hot tub is anything but ordinary. Seating for four and 20 therapy jets make the Denali™ Spa the perfect escape after a hard day of work or play, either at home or on the slopes.

### **About Sundance Spas, Inc.**

Since 1979, Sundance Spas has perfected the spa experience. Sundance Spas is devoted to improving health and lifestyles through its hydrotherapy benefits, including stress relief, health restoration and the creation of an environment for balanced living.
