SUNDANCE SPAS TAKES RELAXATION A STEP FURTHER WITH THE CAMEO™ SPA

Concentrated Jets Massage Fatigued Legs and Feet; Lounge Seat Offers Full-Body Massage

CHINO, Calif. — The Cameo spa from Sundance Spas, Inc., the manufacturer of the world's most well-designed spas, makes relaxation easy with numerous custom features designed to melt away stress by engaging the senses.

The Cameo spa, a Consumer's Digest Best Buy, seats five to six adults, provides a cool-down seat for easing comfortably into the spa and offers three comfortable headrests for neck support. A total of 39 jets exhilarate for a full-body massage experience.

"The Cameo's lounge seat is molded to the contours of the body, which allows the ideal full-body massage to be achieved," said Erica Moir, vice president of product development, design and marketing at Sundance Spas. "Once you experience the unique relaxation provided by the Cameo's powerful footwell whirlpool jets at the end of a long day, you'll want to unwind that way every day."

One of the strongest health benefits of hydrotherapy – which is defined as healing through a combination of heat, water, massage, and buoyancy – is stress reduction. The reduction of stress is an important goal for most people. The Cameo spa enables users to unwind as often as needed while also stimulating four of the five senses, which include touch, sight, smell and hearing.

The Cameo spa's numerous relaxation-enhancing features include:

Jet Therapy: Designed to help spa users relax and unwind, the Cameo spa features three powerful jets in the footwell that pinpoint tired, overworked muscles. The reflexology massage centered on the feet frees nerve pathways to provide a massage felt throughout the entire body.

Lounge Seating: The lounge seat on the Cameo spa, similar to a reclining chair, helps users maintain even weight distribution and correct posture when surrounded by jet-driven water. This feature allows users to remain seated without floating to experience jet action in accurate pressure point areas.

Water Features: The AquaTerrace™ waterfall with adjustable water stream and lighting can be run continuously without turning on the Cameo spa to enhance the feeling of leisure whether a user is in the spa or not. The customizable chromatherapy benefits of LED lighting allow the user to match their desired mood with one of many colors that create different ambient effects.

Aromatherapy: Sundance Spas is the first manufacturer to combine true aroma with hydrotherapy with SunScents™ aromatherapy. Eight different scents allow the user to enhance their mood, ranging from relaxing to invigorating.

Three ComforTone™ head rests, adjustable jets, and additional color and cabinetry options allow the spa user to further personalize the Cameo spa. Twice named a “Best Buy” in the premium spa category by *Consumers Digest*, a leading consumer research magazine, the Cameo spa is a well-designed retreat for a backyard landscape and is available in both above-ground and in-ground models.
