

Custom Hot Tubs - With so many features and options, it's almost like getting to design a custom spa.

In a Hawthorne spa, a variety of power-packed jets and relaxing seating styles work together to provide effective hydromassage variations. Favorite features, like waterfalls, molded beverage holders, and comfy pillow headrests are standard. And for a custom hot tub experience, choose factory-installed options from the Custom Luxury (CL) collection: stainless steel jets, a marine-grade stereo with in-spa speakers, a 24-hour circulation pump, and seductive in-spa LED lighting. The waterfall glows with the addition of optional Custom Luxury LED lighting, which includes interior pinpoint lights, plus underwater illumination.

Named for the plant that grows in the English countryside, the spacious Hawthorne hot tub features cozy side-by-side seating as well as a comfortable therapy lounge, both with therapeutic massage jets. [Learn more by requesting a free, full-color brochure.](#)
